

CERTIFIED FLIGHT INSTRUCTOR (CFI) COURSE

Scottsdale Flight Training

8014 E McClain, Suite 200, Scottsdale, AZ, 85260

OVERVIEW

Scottsdale Flight Training's accelerated 8 day CFI course is designed to guide CFI candidates through ground school, flight training, and checkride prep.

The course will cover aerodynamics, performance, FOI, systems, and a thorough breakdown of the FAR/AIM. The CFI candidates will also teach each other and current students to gain experience. They will then be able to share feedback on lesson plans and presentations to further enhance their teaching abilities.

Flying will be scheduled on an as-need basis, but an average is between 6-15 hours. Checkrides will be scheduled for the week following completion of the CFI course. Completion of the CFI course will prepare the candidate to instruct other pilots towards their goals while also logging hours and gaining experience towards their own goals!

Ground School: 60 hours total

- 40 hours led by Jay Turnbull
- 20 hours led by Stephanie Miller

Flight Training: 8-15 hours (as needed)
